- 2.2. **'Retail Client'** means a client who is not a professional client;

- 2.3. **'Eligible Counterparty'** for the purposes of Article 31 of the Investment Services and Activities and Regulated Markets Law 87 (I) of 2017, are defined as CIFs, other IFs, credit institutions, insurance companies, UCITS and UCITS management companies, pension funds and their management companies, other financial institutions authorised by a Member State or regulated under the laws of Cyprus or under European Union law, national governments and their corresponding offices, including public bodies that deal with public debt at national level, central banks, the Central Bank and supranational organisations. Furthermore, other undertakings meeting pre-determined proportionate requirements, including quantitative thresholds can be considered as eligible counterparties. The law recognises as eligible counterparties, third country entities which are equivalent to those categories of entities referred to above.

- 2.4. **'Professional Client'** is a Client who possesses the experience, knowledge and expertise to make his own investment decisions and properly assess the risks that he incurs. In order to be considered a Professional Client, a Client must comply with one of the following criteria.

2.4.1. Categories of client who are considered to be professionals

The following should be regarded as professionals in all investment services and activities and financial instruments:

- (1) Entities which are required to be authorised or regulated to operate in the financial markets. The list below should be understood as including all authorised entities carrying out the characteristic activities of the entities mentioned: entities authorised by a Member State under the Markets in Financial Instruments Directive, entities

They are however allowed to request non-professional treatment and the Company may agree to provide a higher level of protection. Where the client of the Company is an undertaking referred to above, the Company must inform the Client, prior to any provision of services that, on the basis of the information available to the Company, the client is deemed to be a professional client, and will be treated as such unless the Company and the client agree otherwise. The Client may request a variation of terms of the agreement in order to secure a higher degree of protection.

2.4.1.2. This higher level of protection will be provided when a client who is considered to be a professional, enters into a written agreement with the Company to the effect that it shall not be treated as a professional, specifying whether this applies to one or more particular service or type of transaction.

2.4.2. **Clients who may be treated as professionals on request.**

2.4.2.1 **Identification Criteria**

Clients, other than those mentioned in section 2.4.1, including public sector bodies and

private individual investors, may also be allowed to waive some of the protection afforded by the conduct of business rules.

The Company is therefore allowed to treat any of the above Clients as Professionals provided the relevant criteria and procedure mentioned below are fulfilled. These Clients will not, however, be presumed to possess market knowledge and experience comparable to that of the categories listed in section 2.4.1.

Any such waiver of the protection afforded by the standard conduct of business regime will be considered valid only if an adequate assessment of the Expertise, Experience and Knowledge of the Client, undertaken by the Company, gives reasonable assurance, in light of the nature of the transactions or services envisaged, that the Client is capable of making his own investment decisions and understanding the risks involved.

The fitness test applied to managers and directors of entities licensed under European Directives in the financial sector may be regarded as an example of the assessment of expertise and knowledge. In the case of small entities, the person subject to the above assessment should be the person authorized to carry out transactions on behalf of the entity.

In the course of the above assessment, as a minimum, two of the following criteria should be satisfied:

- a. The Client has carried out significant sized transactions on the relevant market at an average frequency of 10 per quarter over the previous four quarters,
- b. The size of the Client's financial instrument portfolio, defined as including cash deposits and financial instruments exceeds EUR500 000,
- c. The Client works or has worked in the financial sector for at least one year in a professional position, which requires knowledge of the transactions or services envisaged.

2.4.2.2 Procedure

The costumes defined above may waive the benefit of the detailed rules of conduct only where the following procedure is followed:

- a. They must state in writing to the Company that they wish to be treated as a professional client, either generally or in respect of a particular investment service or transaction, or type of transaction or product,
- b. They must state in writing, in a separate document from the contract, that they are aware of the consequences of losing such protection,
- c. The Company will give them a clear written warning of the protection and investor compensation rights they might lose.

2.4.2.3 Before deciding to accept any request for a waiver, the Company is required to take all reasonable steps to ensure that the Client requesting to be treated as a professional client, meets the relevant requirements stated in section 2.4.2.1 above.

2.4.3. Professional clients are responsible for keeping the Company informed about any

change which could affect their current categorisation. However, should the Company become aware that the Client no longer fulfils the initial conditions which made him eligible to be categorised as a professional; the Company will take appropriate action.

- (2) Under the law, where the Company provides investment services other than investment advice (in the form of personal recommendations) or discretionary portfolio management, the Company shall ask a retail client to provide information regarding his knowledge and experience in the investment field relevant to the specific type of product or service offered or demanded, so as to enable the investment firm to assess whether the investment service or product envisaged is appropriate for the client. In case the Company considers, on the basis of the information received, that the product or service is not appropriate to a retail client, it shall warn the client accordingly. Please note that the Company is not required to assess appropriateness in certain cases specified by law.
- (3) When executing orders, investment firms and credit institutions providing investment services must take all reasonable steps to achieve what is called “best execution” of the client’s orders; in other words, to obtain the best possible result for their Client.

Where the Company executes an order on behalf of a retail client, the best possible result shall be determined in terms of the total consideration, representing the price of the financial instrument and the costs related to execution, which shall include all expenses incurred by the client which are directly related to the execution of the order, including execution venue fees, clearing and settlement fees and any other fees paid to third parties involved in the execution of the order.

- (4) Investment firms and credit institutions providing investment services must obtain from the Client such information as is necessary for the firm or credit institution, as the case may be, to understand the essential facts about the Client and to have a reasonable basis for believing - giving due consideration to the nature and extent of the service provided - that the specific transaction to be recommended (or entered into in the course of providing a portfolio management service) satisfies the following criteria:
 - a. It meets the investment objectives of the Client in question;
 - b. The Client is financially able to bear the investment risk that arises from his investment objectives;
 - c. That the Client has the necessary experience and knowledge to understand the risks involved in the transaction or the management of his portfolio.
- (5) The Company must inform retail clients of material difficulties relevant to the proper carrying out of their order(s) promptly upon becoming aware of the difficulty.
- (6) The Company is required to provide retail clients:

- a. With periodic statements in respect of portfolio management activities carried out on their behalf more frequently than for professional clients.
 - b. With more information than professional clients as regards execution of orders other than for portfolio management.
- (7) The Company will not use financial instruments held on behalf of a client for its own account or the account of another client without the Client's prior express consent to the use of the instruments on specified terms, as evidenced, in the case of a retail client, by his signature or an equivalent alternative mechanism.
 - (8) Where the Company provides portfolio management transactions for retail clients or operate retail client accounts that include an uncovered open position in a contingent liability transaction, it will also report to the retail client any losses exceeding any predetermined threshold, agreed between the Company and the client, no later than the end of the business day in which the threshold is exceeded or, in a case where the threshold is exceeded on a non-business day, the close of the following business day.
 - (9) If the Company provides an investment service other than investment advice to a new retail client for the first time after 1 November 2007, the Company must enter into a basic written agreement with the Client, setting out the essential rights and obligations of the firm and the Client.
 - (10) Retail clients may be entitled to compensation under the Investor Compensation Fund for Bank Clients or the Investor Compensation Fund for Clients of Investment Firms, as the case may be.
