10.16.10.If you plan to use more than one credit/debit card to deposit funds into your Account, you must ensure that your account has a zero balance before changing cards. You can do this by using any remaining funds within the Account or withdrawing any

remaining funds to the original credit card. Before you can use any other credit card, you will need to register it with us in accordance with the procedures described hereinabove.

- It is important to keep a record of all of your credit/debit card deposits. To help you maintain these records you should be aware that your credit/debit card deposits are recorded and reported on your credit/debit card statement
- We are committed to continuing to provide the highest level of security for our customers when depositing money on-line. A new initiative has been put into place by MasterCard and Visa to further protect on-line transactions called MasterCard SecureCode and Verified by Visa. These both work in a similar way and protect the card holder with a secret code/password against unauthorized use of your card when you deposit money online. Please click one of the links below to visit the MasterCard or Visa websites for full information.
 - MasterCard SecureCode
 - Verified by Visa
- If your card qualifies for either MasterCard SecureCode or Verified by Visa you may be prompted to either register or enter your security details at the Credit Card Deposit screen displayed on our Online Trading Facility and follow the instructions posted thereon.

17.CHARGEBACKS

- If you place a chargeback with your credit card company (on purpose or by mistake) for any deposit you made in your Account with us, we reserve the right to charge a “USD 150, research fee” to your Account upon receiving the chargeback by our merchant provider to cover our investigative expenses to prove that you did make the deposit, and you hereby authorize us to charge this amount to your credit card.
- We do not tolerate credit card fraud, and all fraud, without exception, will be prosecuted through criminal proceedings in your local jurisdiction to the fullest extent of the law. In addition, we will pursue civil legal action in your local jurisdiction seeking any loss of income related to the fraud, including business, legal fees, research costs, employee down time and loss of revenues.
- We employ advanced risk modelling to detect fraudulent transaction clues across our Services. Fraudulent transactions are immediately cancelled after being detected. Any active Orders associated with the same fraudulent credit card will also be cancelled immediately. We also actively leverage external, cross-industry resources -- such as worldwide fraud blacklists – to prevent fraudulent users from accessing our Online Trading Facility in the first place.
- We consider credit card charge backs to be fraudulent if you make no reasonable effort to work with us to resolve any problems with your deposit. All frivolous chargebacks not only cost our employees time away from our usual and customary matters of conducting normal business, but also cost us money, therefore:

- when we detect questionable activity related to a deposit that is being made in an Account, we will mark the deposit with a “customer review in progress” status and perform fraud detection checks on the deposit to reduce your exposure to risk; during this time, you won't be able to access your Account.
- In general, we complete reviews within four (4) to six (6) hours; certain deposits posing a higher potential risk may require more time, however, as our Compliance Department performs even more extensive fraud detection checks. We may also contact you directly as a backup precaution. If we determine that a deposit is high-risk or doesn't comply with our Fraud & Security Policies, the deposit will immediately be cancelled and the funds will immediately be refunded to the credit card from which the deposit was initially made. Furthermore, in such instances, we reserve the right, at our sole discretion, to close any and all of your Account(s) with us immediately. Any active Orders associated with the same fraudulent credit card and/or Account will also be cancelled immediately.
- You agree that if you choose to do business with us and you file a charge back with your credit card company, but you do not win the charge back argument, you agree to pay us, in addition to the “USD 150,- research fee mentioned above, a “USD 150,- administrative processing fee” for our time responding to the matter. You hereby authorize us to charge this amount to your credit card. If this charge is rejected, we will pursue legal action to recoup losses for our time associated with responding to the charge back in addition to any other fees explained above. You agree to reimburse us or any Representative we may appoint for any legal expenses your actions may make us incur.
- In addition, we will attempt to recover fraudulently disputed charges plus additional costs via a third-party collection agency and your account will be reported to all credit bureaus as a delinquent collection account. This may severely damage your credit rating for at least the next seven (7) years. At this point, we will no longer accept a settlement of your debt and will only accept payment in full. In addition to this, we will file a report with your local police department, and pursue all fraudulent activities through your local jurisdiction for prosecution to the fullest extent of the law. Furthermore, in such instances, we reserve the right, at our sole discretion, to take all action as we see fit, including, without limitation, completely blocking access to our Online Trading Facility, blocking and/or revoking your Access Codes and/or terminating your Account. Under these circumstances, we reserve the right to seize any profits and/or revenues generated directly or indirectly by exercising any such prohibit trading activity and we shall be entitled to inform any Interested third parties of your breach of this clause; any active Orders associated with the same fraudulent credit card and/or Account will also be cancelled immediately; we have, and will continue to develop any tools necessary to identify credit/debit card fraud; any dispute arising from such fraudulent activity will be resolved by us in our sole and absolute discretion, in the manner we deem to be the fairest to all concerned; that decision shall be final and/or binding on all participants; no correspondence will be entered into.
- We take fraud very seriously. We log IP strings on all deposits made in our accounts - any orders coming back as a chargeback due to fraudulent activities will be diligently pursued through criminal proceedings in your local jurisdiction for prosecution to the fullest extent of the law.

 - The Company may provide copies of such recordings of telephone calls to the regulatory authority of a competent authority without informing the Customer.
 - The Company may provide copies of such recordings of telephone calls to the regulatory authority of a competent authority without informing the Customer.
- **CONSENT TO DIRECT CONTACT**
 - The Customer consents that any communication whether by telephone, facsimile or otherwise, received by the Company in relation to the Service Agreement or marketing does not breach any of the Customer's rights under the Service Agreement.
- **MARKET MAKING**
 - Please note that we are at no time and under no circumstances obliged to disclose any details of our performance or our income produced as a Market Maker, or otherwise related to other commissions, charges and fees.
 - In order for us to provide Price Quotes with the swiftness normally associated with speculative trading, we may have to rely on available price or available information that may later prove to be faulty due to specific market circumstances, for instance, but not limited to, lack of liquidity in, or suspension of an Underlying Instrument or asset or

errors in feeds from information providers or in Price Quotes from our counterparties. In these circumstances, provided that we have acted in good faith when providing the relevant Price Quote to you, we may cancel the relevant Transaction and/or Contract with you, but shall do so within reasonable time and shall provide you with a full explanation for the reason of such cancellation.

- Following execution of any position with you, we may, at our reasonable discretion, subsequently offset each such position with you with another client position or with a

position with one of our counterparties, or we may decide to retain a proprietary position in the Market with the intention to obtain trading profits from such positions. Such decisions and actions may therefore result in us offsetting client positions at prices different – sometimes significantly different – from the Price Quotes provided to you, resulting in trading profits or losses for us. This in turn can raise the possibility of you incurring, what may be seen as, an implied cost (i.e., the difference between the price at which you traded with us and the price at which we subsequently traded with our counterparties and/or other clients), due to any profits realised by us as a result of the Market Making function. Please also note, however, that the Market Making function may involve significant costs to us, if the market moves against us in comparison to the price at which we traded with you.

- You accept that, in such Markets where we act as Market Maker, we may hold positions that are contrary to your positions and/or the positions of certain other of our clients, resulting in potential conflicts of interest between us, and any such other of our clients.
- In Markets, where we act as a Market Maker, you accept that we have no obligation to quote prices to you and/or any of our other clients, at any time in any given Market, nor shall we have an obligation to provide such Price Quotes to you and/or any of our other clients with a specific maximum spread.
- You acknowledges, recognize and accept that the Price Quotes provided to you include a ‘spread’ when compared with the price for which we may have covered or expected to be able to ‘cover’ the Transaction or Contract in a trade with another client or a counterparty; furthermore, you acknowledges, recognize and accept that said ‘spread’ constitutes remuneration to us and that such ‘spread’ cannot necessarily be calculated individually for all Transactions and/or Contracts and that such ‘spread’ will not be specified at the Settlement/Trade Confirmation or otherwise revealed to you.
- Any commission costs, interest charges, costs associated to and included in the ‘spreads’ that are part of the Price Quotes provided by us as a Market Maker in certain Markets, and any other fees and charges will consequently influence your trading result(s) and may have a negative effect on your trading performance compared to a situation in which such commission costs, interest charges, costs associated to and included in the ‘spreads’, would not apply.
- Whilst dealing ‘spreads’ and commissions are normally considered moderate seen in relation to the value of the Financial Instruments traded, such costs may be considerable when compared with your Margin deposit. As a consequence thereof, your Margin deposit may be depleted by the trading losses, which you may incur and by the directly visible dealing costs such as commissions, interest charges and brokerage fees, as well as by the afore-mentioned invisible costs for you that are caused by our performance as a Market Maker.
- If you are an active trader and you are undertaking numerous Transactions and/or Contracts,

the total impact of visible as well as invisible costs may be significant. Consequently, you may have to obtain significant profits in order to cover the costs associated with the trading activities you undertake with us as a Market Maker. For very active clients, such costs may over time exceed the value of the Margin deposited with us. Normally, when trading Margined derivatives, the lower the percentage of the applicable Margin rate, the higher the proportion of the costs associated with executing a Transaction and/or Contract.

- You are hereby specifically made aware that in the area of Market Making in foreign exchange, CFD Contracts and other OTC products, significant implied costs can arise as a consequence of the profits made by us performing in our capacity as a Market Maker; thus, our performance as a Market Maker may negatively affect your Account with us and the said associated costs may neither directly visible nor directly quantifiable for you at any time.
- Please note that we are at no time and under no circumstances obliged to disclose any details of our performance or our income produced as a Market Maker, or otherwise related to other commissions, charges and fees.
- You are hereby specifically made aware that CFDs may be OTC products quoted by us whilst operating as a Market Maker, and are not traded on a recognized stock exchange. As a result, the description above of the implied, not visible costs related to our performance as a Market Maker, may also apply to any CFD Contract.

- **CONFLICT OF INTEREST**

- The Company is required by Law to take all reasonable steps to detect and avoid conflicts of interest. The Company is committed to act honestly, fairly and in the best interests of its Customers. The document 'Conflicts of Interest Policy' provides a summary of the policy.
- The Customer accepts that a conflict of interest may arise when the interest of the Company competes or interferes with the Customer's interests under the Service Agreement. By way of example, the Customer accepts that:

- By accepting these Terms and Conditions, you expressly acknowledge and agree that we may transact such business without prior reference to any potential specific Conflict of

Interest.

- **GOVERNING LAW AND JURISDICTION**

- The Customer agrees not to claim that such proceedings have been brought in an inconvenient forum or that such court does not have jurisdiction over the Customer.
- Notwithstanding any other provision in this Agreement, in providing Services to the Customer the Company shall be entitled to take any action it considers necessary, in its absolute discretion, to ensure compliance with the relevant market rules and or practices and all other applicable laws.
- All transactions on behalf of the Customer shall be subject to the applicable regulations and any other public authorities which govern the operation of the Cyprus Investment Firms, as they are amended or modified from time to time. The Company shall be entitled to take (or omit to take) any measures which it considers desirable in view of compliance with the Applicable Regulations in force at the time. Any such measures that may be taken and the Applicable Regulations in force shall be binding on the Customer.
- Any proceedings and their settlement involving the Customer and the Company will take place in the competent courts of the Republic of Cyprus.

Such information will be binding on the Customer, without prior written notice and consent.

- **FORCE MAJEURE**

- A Force Majeure event includes without limitation any natural, political, governmental, economic, social, technological acts that may be outside the control of the Company, which prevent the Company from maintaining an orderly operation of business.
- The Company may, in its reasonable opinion, determine that a force majeure event occurred, in which case the Company will take all reasonable steps to inform the Customer.

A Force Majeure Event includes without limitation one or more of the following:

- Government actions, the outbreak of war or hostilities, the threat of war, acts of terrorism, national emergency, riot, civil disturbance, sabotage, requisition, or any other international calamity, economic or political crisis;

 - A financial services moratorium having been declared by the appropriate regulatory authorities or any other acts or regulations of any regulatory, governmental, or supranational body or authority;

 - The suspension, liquidation or closure of any market or the abandonment or failure of any event to which the Company relates its Quotes, or the imposition of limits or special or unusual terms on the trading in any such market or on any such event.

30.DEFAULT

 - Close out all or any of the Customer's Open Positions at current Quotes;

• ELECTRONIC TRADING

- Upon commencement of the Service Agreement, the Customer shall download and install the Company's trading platform software, which is available on the website of the Company, and receive the access codes which will enable the Customer to log in and enter into transactions with the Company
- The Customer is responsible for any instructions/transactions received/entered through the trading platform, either from the Customer directly or through an authorized representative.
- The Customer acknowledges that the Company has the right to restrict, modify or even terminate the access of the Customer to the trading platform if the Company deems it necessary. This measure is in force to ensure the unobstructed functioning of the electronic systems for trading and the protection of both the customers' and the Company's interests.
- The Customer's access codes, transaction activities and all other related information must remain confidential at all times and the Company does not bear any responsibility for any financial loss that might arise should the Customer disclose his/her access codes to an unauthorised third party.
